Civil Engineering & Construction Industry Handbooks

CIVILICOM (Australia civil engineering permanent e-fair) plans to release a unique publication entitled "Civil Engineering and Construction Industry Handbook" with the aim of coherently introducing the pioneers of civil engineering and construction industry around the world. A fully professional or academic editorial board is involved in this project to check the shortlisted companies and select the best ones. The selected companies will not only be introduced in this handbook and our social media but will also receive an e-booth at the CIVILICOM permanent e-fair which can be linked directly to these companies' websites. At the same time, the electronic version of this handbook will be published with the ability to be linked to any necessary references and to be included our clients' advertising videos .

This handbook covers major companies, in the following fields:

- Producing all construction materials
- Producing all machinery
- Producing all tools
- Providing important Civil engineering services
