

About CIVILICOM E-Fair

The World Civil Engineering Information Centre (CIVILICOM) proudly presents the International Civil Engineering and Construction Industry Permanent E-Fair, a groundbreaking, open-access, and continuously evolving digital exhibition.

This one-of-a-kind virtual fair features 100 specialised saloons, each dedicated to a key sector of the construction and civil engineering industries, showcasing the most innovative products, services, tools, and technologies worldwide.

For each country in each of the 100 saloons, 10 exclusive booths are specially reserved as VIP showcases, dedicated to presenting in detail 10 exceptional companies from that country aligned with the saloon's theme. These premium showcases offer an in-depth presentation space, including images, videos, brochures, and direct contact features, ensuring maximum visibility and impact.

All other participants will be categorized and listed by their name and website unlinked URL in our BASIC showcases, providing broad industry presence and discovery opportunities.

Advantages:

- **Comprehensive Coverage:** From cutting-edge construction materials and heavy machinery to advanced engineering solutions and project services, everything is represented.
- **Global Reach:** Open to companies from across Australia, New Zealand, USA, England, Canada, France, Germany, Italy, Sweden, UAE, Kuwait, Asia, and Africa.
- **Flexibility:** Virtual booths and presentations can be easily updated or expanded as needed.
- **Cost-Effective:** Companies save on expenses such as venue rentals, booth setup, travel, accommodation, and printed marketing materials.
- **Eco-Friendly:** Virtual exhibitions reduce the need for printed brochures, banners, and other physical materials.
- **Enhanced Branding:** Companies can use multimedia elements such as videos, 3D product models, downloadable brochures and interactive presentations to create a compelling and memorable brand experience. CIVILICOM has a broad social media networking with at least 30,000 expert audiences locally and globally, themselves personally.
- **Permanent Visibility and 24/7 Accessibility:** Your company will be visible 24/7, all year round, without the limits of time-bound trade fairs. Allowing visitors from different time zones to explore the content at their convenience, leading to more engagement.
- **Open Access:** This is an open access exhibition for all audiences and visitors.
- **Live Showcases:** All showcases are linked to the clients' live URLs.
- **Electronic Publication Series:** A set of 100 specialized volumes will be electronically published, covering each saloon's theme in depth. These volumes will include detailed information about VIP participants, along with live web links to their company profiles, websites, or promotional materials, ensuring long-term visibility and real-time connectivity with readers worldwide.
